(3) Memo from 25X1A9A same subject, 16 May 1957
25X1A9A

25X1A9A
It is requested that the following be passed to 25X1A9A

1. The delay in completing the reproduction of these overlays is regretted. The delay was due to the fact that the cronaflex reproduction of the tracings did not work out as well as desired. It was discovered that some of the material on the original overlays was too light to reproduce on the cronaflex without making the remainder of the cronaflex sheet too dark.

2. It will be necessary to have the original tracings redrafted by Cartography Division, after which another cronaflex run will be undertaken. The redrafting will be done on tracing sheets of the proper size to match the sheets of the German 1:25,000 series, and a uniform set of symbols for border installations will be used for all sheets. The symbols used on the original tracings vary somewhat from sheet to sheet. It is hoped that the job will be completed and the originals and reproductions forwarded to you in the near future.
